Ground To Sky

Airhostess Academy

Giving Wings To Your Flying Dreams

ABOUT US

Established in the year 2008, Ground To Sky has pioneered to break the monotonous aspect of career buliding in terms of commerce or science. We aim to give our students a new direction to fly high. Over a decade, Ground To Sky has placed 400+ studets across the globe.

We expertise in focussing more on the innovation rather on imitating. Smart Education is the method which we have picked as the tool for teaching.Inculcating the habit of adaptive learining rather than book based knowledge is what makes us stand out. The classes are conducted in a more practical and tech friendly manner. Regular Workshops by industry trained individuals, swimming training and mock up sessions are a part of the curriculum.

Our mission is to provide world class training to the students where there is a way to explore on the possibilities within. The course provides quality education on the topics covered in and around aviation. Our motto is to educate and bring the stuents in light about the experiences and opportunities that aviation industry provides.

YOU CAN FLY BY BECOMING AN AIRHOSTESS

AVIATION INDUSTRY

The civil aviation industry in India has emerged as one of the fastest growing industries in the country during the last three years. India is currently considered the third largest domestic civil aviation market in the world. India is expected to become the world's largest domestic civil aviation market in the next 10 to 15 years. India is also expected to displace the UK to become the third largest air passenger* market by 2025.

India is the ninth-largest civil aviation market in the world and presently has a market size of USD 16 billion. The industry is poised to become the third-largest aviation market by 2020 and the largest by 2030. It is among the five fastest - growing aviation markets globally, growing at over 20% year over year. The passengers carried by domestic airlines has increased by 41% from 129 million in Jan 2013- December 2014 to 181 million in Jan 201-Dec 2016. The growth of the industry is being propelled by the development of airports, presence of several low-cost carriers, a liberalized FDI policy, increasing adoption of information technology, and focus on improving regional connectivity.

Airlines expect to welcome 3.6 billion passengers in 2020 which was 2.8 billion in 2017. India is among the five fastest growing Aviation market globally with 275 million new passengers. India is soon set to become third Largest aviation market one year earlier than originally expected.

By 2036, India will have about 478 million airline passenger traffic, which will be more than that of Japan(just under 225 million) and Germany (Just over 200 million) combined. India's current passengers traffic is about 141 million.

"All indicators lead to growing demand for global connectivity. The world needs to prepare for a doubling of passengers in the next 20 years. Its fantastic news for Innovation and prosperity, which is driven by air links. It is also a huge challenge for industry to insure we can successfully meet this essential demand. And at **GROUND TO SKY** we focus on high-end training of student with the Expert & Experienced Trainers & Mentors.
